EDUCATION AND HEALTHCARE..... DRIVING CHANGE TOGETHER

It was a privilege to team up with Intercare Hospital recently. Even though we come from different fields - Healthcare and Education - our objectives are the same. The service and care of people, and to work to improve the quality of life of people in Cambodia. Our philosophy is also the same - that everyone deserves to be supported in their growth and development in a holistic way. We are one community working with another community to make life better for the people here.

We are excited about all of the projects that we can do together - from offering discounts and benefits to the people in our communities; health checks and care programmes for our students; health education workshops, and so much more.

I think together we can make a real difference. Through this partnership we are further strengthening that duty that we both have.....and that is to help. I am really proud of the way that we support, care and nurture our students at SISC. I am proud of the community that we have built. So this agreement is a great step for us, as we get to expand our community, and now with more support, resources and access, we can do so much more.

MS. LOUISA CONDORELLI, HEAD OF SCHOOL

K1 ADVENTURE TO DOOZI!

Our K1 students embarked on a field trip to the "Doozi" indoor playground, filled with excitement as they engaged in a variety of role-playing activities. They kicked off their adventure at the firefighter station, where they donned costumes and learned about teamwork and bravery. At the supermarket, the children took turns acting as cashiers and customers, practising their social skills while pretending to buy fruits and vegetables.

In the restaurant area, students assumed the roles of chefs, enjoying pretend family meals and discovering the importance of cooperation. They also explored a creative station, where they had fun experimenting with makeup and expressing themselves.

One of the highlights was the doctor and dentist role play. Wearing lab coats and medical jackets, the children took turns as doctors, dentists, and patients, using toy stethoscopes and dental tools. This experience fostered empathy and taught them the significance of health while encouraging them to take turns and celebrate each other's roles with kindness.

The day concluded with an exciting train ride and time spent jumping on trampolines, promoting physical fitness and coordination. Overall, this field trip provided valuable opportunities for the students to develop essential life skills and strengthen their friendships while reinforcing their classroom learning.

K1 HOMEROOM TEACHERS

YEAR 6 (G5) CAMP TO KIRIROM

Our recent trip to V Kirirom Nature Pine Resort was an unforgettable adventure filled with exploration and learning. From the moment we arrived, we embraced teamwork and collaboration, dividing into groups to tackle various activities. We played fun games that required us to communicate and work together, which made everything enjoyable and smooth. Exploring the beautiful nature around us was a highlight, as we marveled at the diverse plants, trees and wildlife, reminding us of the importance of caring for our environment. Camping in tents was a new experience for many of us; we shared stories around the campfire, roasted marshmallows and created our own video advertisements, sparking our creativity while gazing at the stars. The hiking tour was a true test of our endurance, as we trekked 5 kilometers through stunning trails, encouraging each other along the way. Reaching the top felt like standing on top of the world, and the sense of accomplishment we shared was incredible. This trip taught us that through collaboration and teamwork, we can create amazing experiences and cherished memories.

MR. WESLEY BERGEMANN, YEAR 6 (G5) HOMEROOM TEACHER AND CAMP LEADER

Students from Southbridge International School Cambodia participated in a campus tour at De MontFort University Cambodia. The purpose of this field trip was to provide SISC students with the opportunity to gain understanding of university life by exploring an actual university campus, including its classrooms, school facilities, as well as engage in first hand interactions with both university students and professors. The students also had a chance to attend a university- level business class lecture conducted by one of DMUC's distinguished professors, Mr. Oluyele. There was a presentation conducted by the admissions team providing information on the application process, scholarship opportunities, and special discounts available to SISC students.

UNIVERSITY FIELD TRIP TO DE MONTFORT UNIVERSITY CAMBODIA

A total of thirty-three enthusiastic students from grades eleven and twelve participated in this trip, and they received a warm welcome from Ms. Zakina Zafar, the Executive President of De MontFort, along with her team. Overall, the experience proved to be both valuable and enriching, allowing the students to gain important insights into university life.

FUELED BY PASSION AND PURPOSE, SISC STUDENTS BRING HONOR TO CAMBODIA AT ICIA 2025 GLOBAL ROUND

Cheers to our young global leaders! At the International Creativity and Innovation Award (ICIA) 2025 Global Round in Vietnam, held from April 25–27, our teams proudly represented Cambodia and SISC, wowing the world with their talent and innovation.

Vital Stats — Myshha Varun Krishnan, Rosana Kol, and Sivchhing Sov — earned the Gold Award for their visionary project in health analytics.

The Riverguard — Ly Kahing Taing, Chan Monirith Kep, and Mai Cia Fuk — received the Bronze Award for their sustainable solution to river pollution.

Held at the University of Economics Ho Chi Minh City, the three-day competition gathered over 400 global finalists from 26 countries to explore global issues, present creative ideas, and build cross-cultural connections.

Beyond the awards, our students joined inspiring workshops and met real-world innovators. We are proud of their creativity, teamwork, and confidence in showcasing 21st-century skills on the global stage.

Well done, changemakers!

STEM TEACHING ADVISORS, SECONDARY YEARS

SISC MODEL UNITED NATIONS CONFERENCE 2025

Southbridge International School Cambodia proudly hosted its inaugural Model United Nations (MUN) conference. With 51 registered delegates, the event allowed students to take on global leaders' roles, engage in diplomatic discussions, and collaborate on real-world solutions. The conference featured four committees: the United Nations Security Council (UNSC), the United Nations Human Rights Council (UNHRC), the Disarmament and International Security Committee (DISEC), and the Social, Humanitarian, and Cultural Committee (SOCHUM)—each tackling pressing global issues through rigorous debate and negotiation. As a simulation of UN proceedings, MUN enhanced critical thinking, negotiation, and public speaking skills, equipping students to navigate complex international challenges. The delegates demonstrated their passion, diplomacy, and dedication to global problem-solving throughout the conference, making it a truly unforgettable experience.
