

## MEASLES AND RUBELLA VACCINATION

The Measles and Rubella (MR) vaccine protects children and the community from two serious diseases. It prevents measles, which can cause dangerous complications, and rubella, which can harm pregnant women and their babies. The vaccine also helps stop the spread of these diseases, provides long-lasting protection, and supports global efforts to eliminate them.

Recognizing these benefits, Southbridge International School Cambodia in collaboration with the Ministry of Health, organized an MR vaccination campaign for students aged 5 to 9 on August 8, 2025, at the SISC Assembly Hall. The programme was voluntary, giving parents the choice to participate, and they were warmly welcomed to accompany their children during the vaccination.

The event was a great success, with strong participation from parents and students, reflecting the community's trust in the school's commitment to student health and well-being.

Mr. Thol PICH, Khmer Programme Principal

Welcome back to another  
amazing year at Southbridge!

As a new academic year begins, we're excited to see our school buzzing with energy and fresh ideas!. This is an opportunity to set goals, build new friendships and relationships, and grow both academically and personally. This year is about trying new things. Our keywords are INNOVATION and CHANGE. It's about moving forward into the future and making sure we are ready for what will come next.

Let's work hard, stay positive, and make this school year the most successful one yet! Welcome back!

Ms. Louisa Condorelli, Head of School

# Parent Orientation: Engaging Families in Learning

At the start of this academic year, our school placed strong emphasis on academic improvement, and our first step was to engage parents to ensure they understand the school's expectations. During our recent Parents' Orientation, families were introduced to essential information, including school rules, daily schedules, and the various learning and school management applications in use.

Our dedicated academic team led by the different programme principals delivered programme-level presentations tailored for each year group, followed by a lively and insightful question-and-answer session. Parents had the opportunity to gain a clear understanding of how the school's curriculum operates and how it supports their child's learning journey.

Feedback from parents was overwhelmingly positive, with many expressing appreciation for the school's proactive approach and commitment to keeping them informed and involved. The session set the tone for a collaborative year ahead, reinforcing the partnership between home and school in fostering student success.

**Mr. Bothwell Rside, Primary Years Principal**

# Student Orientation

The first week of back-to-school was our student orientation! Our new and returning students have been busy learning their routines, meeting new friends, and adapting to the school environment.

In the Early Years, students engaged in a variety of fun activities designed to build connections with their classmates. Through playful interactions, they explored their daily routines, which helped them feel more comfortable and secure in their new surroundings.

In the Primary Years, students took a tour of the school, giving them the opportunity to learn about their new teachers and discover different areas of the campus. Familiarizing themselves with their timetables helped ease any anxieties they may have had, fostering a sense of belonging and excitement for the year ahead.

Meanwhile, our Secondary Years students had the important task of organizing their stationery and textbooks. This week allowed them to take a proactive approach in preparing for their studies by gaining a clear understanding of their selected subjects and classes. Being organized is crucial for managing academic responsibilities, and we are proud of their enthusiasm to start the year off right.

As we continue this journey together, we encourage parents to engage with their children about their experiences during this transition. Open conversations can help reinforce the positive feelings they have about their new routines and friendships. Thank you for your ongoing support and involvement in our school community. We look forward to a fantastic school year ahead, filled with learning, growth, and memorable experiences!

**Ms. Marina C. Oligo, Early Years Principal**
